## Inventory Report

January 2015
The results of our automated inventories of library materials completed each January are below. The chart indicates the number of missing items. Items may be unaccounted for due to a number of reasons, including: stolen, inadvertent walk-away or error during check out. The new circulation computer continues to conflict with checkout at times, as returned books are showing up as not actually checked out. We ran and update to the system software on Jan. 22 that may correct the error. Each year, many items are returned that have been marked missing in the annual inventory. After running the initial report on January 16,14 items have been returned or found. The numbers below reflect the adjusted total.
